Repairing.

PAUL WERNER,  
OPPOSITE ROYAL HOTEL.

#### Wanted in Montana.

John W. Fletcher, who has  
been farming in the Keep  
Hills district, was taken in  
charge last week by Sheriff  
Ellert of Gardiner, a town in  
southern Montana. The charge  
against him is said to be re-  
moving mortgaged property in  
Carbon County, Montana. On  
arriving in Alberta last Nov-  
ember, Fletcher (whose name  
in Montana was Fletcher)  
homesteaded in Keep Hills  
district, where he has resided  
since. On being brought to  
Edmonton he waived extra-  
dition proceedings, and left  
Saturday evening under es-  
cort for his old home in the  
States.

#### LOCAL NEWS.

Meredith brothers motored  
to Holden on Saturday and  
purchased 100 head of cattle  
which they shipped East.

Mr J. H. Clarence Lory,  
who has been attending the  
sessions of the Ontario Agri-  
cultural College at Guelph, is  
expected home this week, as  
the sessions are ending earlier  
this year.

Mr Bishop has his house  
listed for sale, and intends  
moving to the City.

The Officers' Club are still  
undecided on the date for  
their banquet.

Albert Klapper underwent  
an operation Saturday, in Ed-  
monton.

Wm Miller, from Missouri,  
arrived last week. He has  
purchased the house and con-  
tents of Stan Meyer, who has  
returned to Didsbury.

Officer Smith has returned  
from Whitescourt, where he  
had been aiding in rescue  
work.

Mr and Mrs Dave Roberts,  
Edmonton, were visiting on  
Sunday with Mr and Mrs A.  
Fischer.

Mr Emil Baron motored a  
party of friends out from the  
City on Saturday.

Jack McColla spent the  
week-end with old friends at  
Edson.

Mr Miller, proprietor of the  
Royal Hotel, is negotiating  
for the purchase of a Delco  
lighting plant, for illuminating  
his hotelery. The local Delco  
agent Mr Johnny Miller will  
install it.

After a record run of six  
hours an evening for 14 even-  
ings, the electric light plant  
was closed down all Sunday  
evening, owing it is reported,  
to a fracture of the mud valve  
obligatory.

Owing to the small number  
of members of the Women's  
Institute which turned out  
for the meeting last week at  
the home of Mrs Jas Malloch  
no business was transacted.  
The next session is billed for  
Wednesday, May 12, at the  
same place.

The Service Garage is in-  
stalling a new gasoline reer-  
voir at the korb.

The manager at the local  
bank reports that the boxes  
in the new safety deposit vault  
service are practically all en-  
gaged, with the exception of a  
few of the larger size. A new  
outfit of boxes is expected to  
shortly arrive.

The Provincial Liberal As-  
sociation opened its session  
yesterday in Edmonton, with  
a large number of delegates  
present from all parts of the  
province. Stony Plain consti-  
tuey was represented by the  
president of the local associa-  
tion Mr F. J. Frauey of this  
field, and the Liberal candi-  
date at the next election Dr  
Oatway.

If you miss Buck Jones in  
'The Cowboy and the Countess'  
you'll miss the thrill of a  
lifetime.

# RE ROSE-TEA

## "is good tea"

You've been intending to try Red Rose sometime. Why not now?

### Canada's Mineral Wealth

Canada appears to be on the eve of a very marked development of the natural resources in minerals which it is well known the Dominion has in abundance but the development of which have, for a variety of reasons, been neglected. In this new era of activity in making these resources available for use, every section of the Dominion will, apparently, have a part, although the most noticeable activity will prevail in Quebec, Ontario and Manitoba.

In Quebec, one of the largest schemes of hydro-electric development in the world is to be carried out on the Saguenay River by United States capitalists. It is predicted that ultimately this development will rival the huge undertakings of the Ontario Hydro-Electric Commission at Niagara, creating additional hundreds of thousands of horsepower. A huge aluminum manufacturing plant is to be erected, with the result that an entirely new city will arise in the ancient province.

During the past year or two Ontario has been steadily forging to the front as one of the world's greatest gold producers, and 1925 proved to be a record year in this respect. Now with the rush into the newly discovered Red Lake district, and a great awakening of interest in the mineral resources of the province, and increased prospecting, the probabilities of a further substantial increase in production and of the ascertained mineral wealth of the province are exceedingly bright.

Some of the most encouraging features of the situation are, however, in Manitoba. At long last, a large sum of money is available for development of the famous Flin Flon area. There is in immediate prospect a \$12,000,000 investment of a mining property with nearly \$200,000,000 of gold, zinc and copper in sight, including the establishment of a smelter, thus making possible the development of other mines in the same district, many of which are said to out rival the Flin Flon in richness of ore. The Government and Legislature of Manitoba are co-operating in the matter of providing necessary railway facilities through the construction of a new line from the Hudson Bay Railway to the Flin Flon mine. A Bill to incorporate the railway has already passed second reading in the Legislature.

In both Alberta and Saskatchewan increased interest is being taken in the discovery and development of promising oil-bearing properties, and while many of these are still of unknown value, geologists are convinced that oil will ultimately be found in both provinces in large and paying quantities. Furthermore, it is absolutely certain that to a greater extent than ever before the huge coal deposits in these two provinces will be utilized to meet Canadian demands and make the Dominion less dependent than formerly on foreign fuel supplies.

These developments are all highly gratifying from a national standpoint. As has been urged repeatedly in this column, it is only through the development of its natural resources that Canada can prosper, secure much needed population, provide increased traffic for its large railway mileage, and ultimately pay off its heavy war debt. Every sound scheme of development is to be welcomed and encouraged.

At the same time a note of warning to the general public is in order. Gold and other mineral discoveries have in them an element of romance, they capture the imagination of people, and arouse great enthusiasms. Men without any scruples take advantage of the resulting excitement, on the paper companies, issue glowing statements and prospectus, promising to make all who invest rich overnight. They never tell of the many who have invested and lost, but recite the stories of the few who have made fortunes out of a paltry sum.

This is a time, therefore, for people to be on their guard against the smooth tongued salesmen of mining stocks and options. Unquestionably there are good and sound investments to be made, but before risking any money people should make the most careful inquiry into the merits of the proposition submitted to them and investigate it fully. There are avenues open through which responsible reports can be obtained, and advantage should be taken of these before any money is paid over, or any undertakings signed. As a rule, any proved mineral property can obtain the capital desired for its development; it is the wild-carter who through sensational advertisement goes out to catch the unwary and gullible, offering one dollar stock for five and ten cents. If it was worth a dollar, that is the price that would be demanded. The strong probability is that it is not worth five cents, or anything.

Canadians should wholeheartedly welcome and encourage all legitimate prospecting and development of the Dominion's mineral wealth, but not only for their own sake as individuals, but for the good name and sound progress of Canada itself, should from down upon and have absolutely nothing whatever to do with the professional mine wild-carter who knows little about mining or minerals, and whose operations serve to "under mine" confidence in Canada and retard its development and progress.

### Her Nerves Were "All Broken Up"

#### She Could Not Sleep

Mrs. David Gallagher, 37 Lyndhurst Ave., Hamilton, Ont., writes: "My nerves were all broken up and I could not sleep at night, and I would have to get out of bed and walk the floor for hours at a time."

#### After Using a Box of

I began to feel much better, and after using a few more boxes I could enjoy my rest as well as ever I could."

### McKinn's Directory Of Canadian Publications

Reliable Source of Information is Available For the Public

A. McKinn, Limited, Canada's largest advertising agency, has just issued the 1926 Edition of McKinn's Directory of Canadian Publications. This is the nineteenth edition, the first issue having appeared in 1907, and each succeeding number has shown an improvement over the previous one. This publication is generally accepted as a reliable source of information on Canadian publications and as well is regularly consulted for geographical and statistical particulars. Each year sees changes in the Canadian publishing field and as far as possible these changes are accurately indicated in this issue.

Some savages of South America treat their wounds by the scientific process of exposing them to sunlight.

Mirand's Liniment used by physicians

### Oppose Attempt To Scale Mount Everest

Priests of Tibet Have Closed Road to All Expeditions

According to a recent dispatch from London, the Dalai Lama of Tibet has finally closed Mount Everest against further attempts to gain its peak, the highest point on the world's surface. This means that Tibetan ruling authorities have reverted to the old policy of exclusion. It had been temporarily abandoned when sanction was given for the previous British expeditions, permission being granted after friendly pressure had been brought to bear by the Indian Government, and that recourse would no doubt have been again made had it been desired. But Captain J. B. L. Noel, the British army officer, who acted as official photographer to the expeditions of 1921 and 1924, is greatly skeptical on the point. In his report he states:

The priests who govern that part of Tibet are now definitely opposed to expeditions up the mountain. They don't like the loss of life that so often occurs, and they cannot understand why we want to reach the top. Neither the sporting spirit nor the curiosity of geologists, botanists and zoologists is comprehensible to them. They think that we have some ulterior motive which we will not disclose. A hint for treasure, for example.

### MUCH SUFFERING FOLLOWS INFLUENZA

Health Can Only Be Restored Through the Use of a Blood-Making Tonic

An epidemic of influenza, such as is now prevalent in many parts of Canada, always leaves widespread suffering in its wake. The disease itself is dangerous, but the danger is seldom over when the characteristic symptoms of the trouble have passed. There is left behind a depression of spirits, weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men who were robust before stricken with influenza find their bodies racked with pain previously unknown to them. This is due to an abnormal thinning of the blood and leaves the system an easy prey to other nervous troubles. This is the time when the convalescent from influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams' Pink Pills. When the blood regains its rich red quality, the nerves recover their strength and the organs of the body function naturally and the dangerous depressing after-effects of influenza disappear. Proof of the undoubted value of Dr. Williams' Pink Pills as a blood-builder and nerve tonic is shown by the case of Mrs. E. O. Stromberg, Cobalt, Ont., who says: "I had a very severe attack of grippe, or influenza, which confined me to my bed for a week. On getting up again I did not recover my usual strength. I was very weak, had a severe pain in my head, and a constant backache. I had to get a woman to do my work for me, and neither the strength nor the energy to do anything. At this stage, remembering the great benefit I had through Dr. Williams' Pink Pills in girlhood, I began taking this medicine, and soon my strength began to return. I am now able to do all my own work again, and take care of my baby boy. I am very grateful for what the pills have done for me, and hope my experience will be of benefit to some other sufferer."

If you need a blood-building tonic begin taking Dr. Williams' Pink Pills today. Sold by all medicine dealers or sent by mail at \$10 a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

**Coal Production Increased**  
Total coal production for 1925 in Alberta was 5,883,294 tons, an increase of 619,000 tons over 1924, according to the report of the provincial mines branch. The report also shows that 1148 tons of gas were taken from the McMurray field.

**Asthma Cannot Last when the great est of all asthma specifics is used.** Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a complete and lasting relief. Surely suffering from asthma is need less when a remedy like this is so easily secured.

Construction engineers have found that men and women weigh twice as much when excited as when sitting quietly.

**MIRVINE Keeps EYES Clear, Bright and Beautiful**  
Write Mirvina Co., Chicago, for Free Book

## We want you to make this test

We want every weak, puny, fagged-out man and woman in America to make this test: buy one bottle of Tanlac at your drug store, take it according to directions for one week and see how quickly you get started back to full strength and vigor.

We know what we are talking about. Tanlac has helped millions. In our files are more than 100,000 letters of praise from grateful users.

Don't confuse Tanlac with ordinary patent nostrums. It is Nature's own tonic and builder, compounded from roots, barks, and herbs that we gather at great expense from the four corners of the earth.

Tanlac goes straight to the seat of your trouble; cleanses and purifies the blood stream; puts your digestion in proper shape. First thing you know you have an appetite like a starved child. You rest at night and your whole body begins to feel the stir of strength and energy.

Don't you be discouraged. Don't put off testing Tanlac another day. Get a bottle now and in a week you should notice signs of real improvement. Then you

### Thanks Tanlac for Renewed Health

"My gratitude to Tanlac is unbounded. Spleen headaches, nervous indigestion and insomnia shattered my health. I lost the ability to rest quietly, day or night. Now my nerves are steady, my appetite is keen and I enjoy life as it should be."

Henry Shuler  
175 Edinburgh St.,  
Pembroke, Ont.

will feel like your old self again. Take Tanlac Vegetable Pills for constipation.

### Frenchman Will Try Trans-Atlantic Flight

Famous Ace Plans To Compete For \$25,000 Prize

It is reported that Captain Fonck, the famous "Ace of aces," intends to compete in the \$25,000 prize for a direct New York-Paris flight. He will make the attempt during the month of May, using an American plane with three engines of French manufacture developing 400 horsepower. The airplane will take off from Central Park and land in the Bois de Boulogne in Paris.

Captain Fonck said it might be a bit premature to make any too definite statements concerning the details of the flight, which might well be modified before the attempt finally is made.

"It is a big job to undertake to fly a distance of 6,000 kilometers," he said. "It cannot be carried out without the most careful preparation in every smallest detail." But the famous aviator expressed confidence the project would sooner or later become an established fact and the two capitals linked together by air.

**An Oil without Alcohol.**—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

**Taking Squeak Out Of Shoes**  
The Boot Trade Research Association at Northampton, Eng., has announced discovery of a treatment for preventing patent leather shoes from cracking. A new method of taking the squeak out of footwear also has been found.

### Mrs. Robert Vyse

"The studio portrait of 'Dr. Pierce's Favorite' is the greatest help to women of any medicine there is. It is especially beneficial to the expectant mother, as it keeps her physically fit at all times. My mother was a great believer in this medicine, and during my first expectant period she had me take it and I got along splendidly—kept well and strong and was able to do my work right up to the last. I had practically no suffering and had a very healthy baby. I took a few bottles of the 'Favorite' and I feel like a new woman, which helped to bring back my strength."—Mrs. Robert Vyse, 139 West Ave. North.

You'll soon feel better if you obtain this Prescription at your nearest drug store. In tablets and capsules, or to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg.

### Hawaiian Mermaid Sets New Swimming Mark

Miss Marichen Welshan, famous Hawaiian swimmer, of Honolulu, photographed at the Crystal Gardens, Victoria, where she recently wrested Canadian swimming honors from Miss Hazel Kesler, of Winnipeg, in the 20-yard indoor swimming competition, making the distance in 2:52 2/5, the previous record for Canada being 3:15 2/5 made by Miss Kesler, at Winnipeg, in 1923. Since the opening of the Crystal Gardens by the Canadian Pacific Railway last season, this is the second time that swimming records have been broken in its 150-foot tank. Just a few months ago the famous Johnny Weismuller and Conrad Milo, of the Illinois Athletic Club of Chicago, made new world's records there, bringing the attention of swimmers everywhere to this already well-known sea-water tank on the British Columbia coast.

"Mummy, isn't that monkey like Grandpa?"  
"Hush, darling! You mustn't say things like that."  
"But the monkey can't understand can he mummy?"

Ringling Brothers began their circus career by showing a goat called Billy Rainbow at an admission charge of one cent.

Mirand's Liniment for sore throat

## Farm Land Values In Western Canada Advancing With Agricultural Prosperity

Increasing prosperity in the agricultural industry, with greater and more satisfactory farm revenue all over the Dominion, and a resultant re-awakening of interest in the acquisition of Canadian farm lands on the part of many interests, has commenced another rise in the value of Canadian farm property of which there is every likelihood of a constant continuance. According to the last return of the Dominion bureau of statistics, the average value of improved farm land for Canada as a whole, including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, was \$28.00 per acre in 1925 as compared with \$27.00 in 1924 and the same figure in 1923.

According to reliable authorities farm land prices in Canada have been as low as they will ever be. There was a steady rise in the average value of Canadian farm land up to 1920, when it reached the peak of \$48.00 over the Dominion. In 1921 and 1922 it stood at \$40.00 and in 1923 and 1924 at \$37.00. Now a new rise has commenced. British Columbia values are lower than they have been since before 1914. Ontario values stand about where they did in 1915; Quebec's in 1916. Prince Edward Island values are where they were in 1919 and those of Nova Scotia in 1918, whilst the value of New Brunswick land has risen steadily above 1920 values. On the prairies, values in Manitoba are where they were in 1920 and in 1921; in Alberta, the same as in 1917; and in Saskatchewan, the same as in 1915 and 1916.

The great inducement Canada holds out to farmers elsewhere to come to pursue their calling in her domain is that her new lands may be secured cheaper than farm lands practically anywhere else, and yet by reason of their high fertility outyield higher priced lands.

Thus, there are few sections on the American continent where land may be purchased at a lower rate than in Manitoba, Saskatchewan or Alberta, and yet these account for consistently higher yields and consequently greater revenue. Lands in the three provinces, recorded as having average respective values of \$25.00, \$24.00 and \$26.00 in 1925, returned in that year from the average acre devoted to wheat \$19.94, \$20.35 and \$24.08. In each case an acre of land needed to wheat practically returned its value in a single year.

The values quoted throughout are for occupied farms to some extent cultivated and having an increased value by reason of various buildings upon them. They do not take into account lands in every part of the Dominion as yet unsettled and totally unproductive, which are naturally of still lower value. These are similarly affected by the circumstances of agricultural prosperity and greater demand. There is every indication that procrastination in settlement at the present time will mean that in each succeeding year land purchasers will have to pay a little more.

### Horse Has Its Place

Services More Seriously Appreciated

New and Price Not Advanced  
A news item published in The Globe a few days ago carried the information that, after ten years of uncertainty, the horse was again coming into his own, but it is hardly probable that the revival will be sufficient to bring back the village blacksmith. There is undoubtedly, however, a new alignment which recognizes the horse as having a permanent place in the scheme of things; that he is an economic factor as well as an animal of intelligence and beauty whose services are more seriously appreciated today than for a long time. If his reputation for slowness in this speedy age has caused his numbers to decline, he can find compensation in the fact that those who want his services must pay for past indifference for his price has gone up.—Toronto Globe.

Prince Names New Horse  
"Hard to Find" is the name the Prince of Wales has given one of his new horses. The pedigree of the animal is unknown.

W. N. U. 1925

### Trying To Discover

#### Mystery Of Sleep

Two Distinctly Different Kinds Says Dr. Curt Richter

A definite step in unravelling the mystery of sleep, which has baffled scientists from earliest times, has been made by Dr. Curt Richter, of Johns Hopkins University. With a string galvanometer and specially constructed electrodes he has been able to tell how soundly a person is sleeping without awakening him. His experiments not only have shown that sleep is of two distinctly different kinds, but that there is a great difference between real sleep and condition in which certain types of mentally ill people appear to be asleep.

His research showed that the resistance to an imperceptible electrical current sent from hand to hand during sleep was localized almost entirely in the skin. This resistance increased in one instance from 50,000 ohms when the subject was awake, to 500,000 ohms when asleep.

The current was applied by two electrodes of zinc covered with a thick kaolin paste mixed with saturated zinc sulphate solution. These were attached to the hands and connected to the strong galvanometer designed to measure the smallest currents.

The experiments showed that the intensity of the resistance varied directly with the intensity of sleep. It was discovered, however, that when sleep was not sound the resistance of the skin on the backs of the hands usually decreased. In these cases the subject was not refreshed by sleep.

In the case of patients suffering from cataplexy stupor, which so closely resembles sleep that it is impossible to tell by looking at the patient that he is not asleep, a very different condition was found. In these cases it was discovered that the palm-to-palm resistance of the hand was less than normal, indicating an intense consciousness, while the resistance from back to back of the "hands" was very high, indicating complete muscular relaxation and lack of control.

From these studies it is hoped that new light will be thrown upon nervous conditions, not only of mentally ill patients, but of relatively normal people suffering from nervous strain.

### Port Of Vancouver Is Busy

Export Shipments In Two Months Show Remarkable Increase

Export shipments of various commodities from Vancouver port for the first two months of this year show a remarkable increase over the same months of 1925. Lumber shipments for the first two months amounted to 7,252,890 feet, as against 31,215,638 feet in the same period of 1925. Flour exports totalled 253,661 barrels, compared 29,670 barrels. Lead and spelter shipments were 443,870 pigs and slabs, against 281,735 for the corresponding months of last year. Apple shipments totalled 47,564 boxes this year, as against shipments last year for the same months of 3,703 boxes. Only in the figures for canned salmon do shipments show a decrease, and this is accounted for by steamers loading direct at cannery ports with full cargoes or completing cargo at other points after clearing from Vancouver.

### Plenty of Farm Work In Alberta

Fifty hundred farm laborers from Central Europe were placed on farms in the Edmonton district in two days, at the end of March. In every case the flow of immigration is being well taken care of in Alberta and there is little or no difficulty in finding work for those who are unable to take up farms of their own at the outset, either through lack of money or lack of experience.

Wool Growers Have Successful Year

At the annual meeting of the Canadian Co-operative Wool Growers, Limited, it was shown that in the past year the association had sold over three and a half million pounds of wool for well over a million dollars. This was an increase of 1,235,000 lbs. over the previous year and indicated that 1925 was one of the most successful years in the association's history.

### World's Poultry Congress

To Be Held In Ottawa July 27 To Aug. 4, 1927

The celebrating of Canada as the country in which the third world's poultry congress will be held is a marked tribute to the prominence which this Dominion is attaining among the nations of the world. Only two previous congresses have been held: one at The Hague, and one at Barcelona, Spain. The showing of Canadian poultry at the Barcelona congress was so outstanding that the invitation extended by the Canadian Government to hold the next congress in Canada was accepted, notwithstanding keen competition for the honor by other countries.

The preliminary announcement of the third world's poultry congress has just been issued from headquarters at Ottawa. It is a very attractively prepared and illustrated booklet which will carry into all civilized countries not only the congress announcement, but a better conception of Canada and things Canadian. The information contained is concise but complete, and the illustrations reflect the various aspects of Canadian life. Agriculture, naturally, plays a large part, but the scenic beauties of the country, and glimpses of its industrial and artistic development, have not been overlooked.

The third world's poultry congress will be held at Ottawa, July 27th to August 4th, 1927. Full information may be obtained from the minister of agriculture in each province, who is chairman of the congress provincial committee, or from Ernest Rhoades, Congress Secretary, Experimental Farm, Ottawa.

### More Homesteaders

Increase Is Shown In Number of Entries For February

Homestead entries in the western provinces in the month of February totalled 150, as compared with 207 in February last year, a net increase of 143, according to a report issued by the Dominion lands patent branch. The distribution of entries by provinces during the month was as follows: Manitoba, 26; Saskatchewan, 172; Alberta, 126; and British Columbia, 16. For the first two months of the current year entries totalled 628, as compared with 440 during the corresponding period of 1925.

Most settlers prefer a small role to an entire loaf.

## Unmistakable Signs Showing The Remarkable Growth Now Being Made By Canada

### California's Potato King Dead

Little Jap Took Up Waste Delta Lands

Death has claimed George Shima, multi-millionaire potato king of California, most affluent Japanese outside the Empire of Nippon, a little man of an alien race who had made history in California since his arrival as an immigrant boy 24 years ago.

Shima came to America with his bride of a few weeks and got employment in the berry patches of interior California. With his first year's earnings he purchased previously scorned delta lands along the Sacramento River, near Stockton. People said he was "crazy with the heat." But the little Oriental had confidence in the waste terrain of the San Joaquin, and today he is credited with the reclamation of many thousands of acres of California land, and with giving to the state millions in new wealth.

At the time of his death he was reputedly worth \$15,000,000. He owned 50,000 acres of California delta land. His entire fortune was founded upon the raising of potatoes, which he first tried out on the "waste lands" of interior California.

### Wonderful Electric Shovel

Operated By Two Men But Does Work Of Hundreds

All known records for moving material with a power shovel were recently broken when an electric giant in a southern mine loaded 3,750 cubic yards of rock on to cars in one eight-hour shift. To accomplish this task the eighty-foot steel boom with its eight cubic yard dipper had to reach down. All itself, rise, swing around and empty into a car at the rate of once every minute and a half throughout the period. The rock saved by this single electric Titan would make a six-inch pavement on a sixteen-foot road a quarter of a mile long, and to load the same amount of rock by hand in eight hours would require an army of fifteen hundred shovel men. The electric shovel was operated by two men.

Babson's Canadap reports give Canadian some convincing and up-to-date evidence that the country is making progress in a business way, and at a rate not to be counted slow, according to a recent editorial in the Edmonton Journal. Here are some of the signs of improvement noted:

"Immigration during December last was forty-five per cent. greater than in the corresponding month a year before.

"Exports for January show an increase of thirteen per cent. over the figures for January of 1925.

"Twenty Canadian industrial stocks in January reached the highest points ever attained by them.

"Last year's wheat crop was the second largest in the history of the Dominion. Barley produced was thirty per cent. greater than in the previous year.

"The shipments of newspaper during December were larger than in any preceding month.

"The iron production during January was one hundred per cent. greater than during January of last year.

"Steel production for January showed an increase of one hundred and fifty per cent. over the figure for January, 1925.

"Five losses in January were forty per cent. lower than in the corresponding month last year."

These facts and figures do not represent a condition of stagnation, nor one of only slow and slight improvement. They are the unmistakable signs of a substantial growth in population, production and trade. Canada has evidently passed out of the depression which followed the boom which followed the war. There is every reason to expect that the time will improve continuously and in all parts of the country.

### Vessel Was Well Built

Still Fit For Use After Century and Quarter of Service

After 126 years of seafaring a forty-ton ketch built in 1800, in Cheshire, England, was recently sold and is still fit for service. Her earliest history is obscure, but for a long period she was employed by a Bridgewater shipping firm. From there she went to Bristol for fifty years. "Jane, as she is called, was young when the Peninsular and Crimean Wars were raging, and she regaled her youth when the war of 1914 sent all civil to every type of shipping. She saw service in the channel. One of her former owners, Captain Stuart, puts her long life down to the fact that she was well built, of good old English oak. Six years ago, on being refitted, her frame was found to be as solid as on the day she was built. Not many ships built today will last as long as Jane.

### Invented First Lifeboat

London Coachman Converted Norway Yawl Into "Unimergible" Craft

The first Englishman to devote himself to the idea of constructing a boat of special buoyancy and stability was a London coachman, Lionel Lukin. As early as 1784 he converted a Norway yawl into what he called an "unimergible" boat. In 1789, independently of Lukin's efforts, the first boat to be built for the express purpose of a lifeboat was launched at South Shields. Her name was "The Original," and she represented a combination of the plans, models and suggestions of a number of inventors. A model made in tin by William Woulfe have, a house painter and a teacher of singing, is still preserved in a South Shields museum.

Artificial Fogs Protect Norway Crops

Artificial fogs, developed for military purposes by a Scandinavian scientist, are being put to peace time use, in Norway to protect crops from frost. The vapor forms a blanket over trees, vines and other growths, thus preventing freezing.

Russian Doctors Unemployed

Ten thousand physicians are unemployed in Russia. Of these 6,000 are graduates from Soviet medical schools in 1923-24. Sixty per cent. are well qualified. The Soviet government has refused to give them government status except just made public.

### General Allenby Honors Fallen

Field-Marshal Viscount Allenby, of Megiddo and Feltzotown, laying a wreath on the monument at the Windsor Station, to the memory of C.P.R. men who fell in the Great War. His Lordship made a tour of the Dominion from coast to coast and his great popularity was attested by the enthusiastic reception he received during his progress across Canada. The noted veteran on the right is Acting-Sergeant Wm. Clark, of the Company's Investigation Department, who served under the Field-Marshal in his Mesopotamia, Palestine and Egyptian campaigns in the Near East.

## WORLD HAPPENINGS BRIEFLY TOLD

Luther Burbank was buried under the old Lebanon cedar tree that stands in a corner of his garden, across the highway from his home.

J. S. Woodsworth, Labor, Winnipeg North Centre, presented a petition in the house urging the payment of pensions to the blind.

The auxiliary schooner, *Ellie Morrissey*, owned by Captain Robert Bartlett, of St. John's, Nfld., is being outfitted at Brigus for an expedition to the Arctic during the coming summer.

Silver plate and trophies from the German battleships *Scharnhorst* and *Leipzig*, sunk by the British off the Falkland Islands have been discovered at Sydney, N.S.W.

Just after leaving Hong Kong harbor on a trip to Singapore, the British submarine *L23* collided with a ferry boat. There were no casualties, but the submarine was badly crippled.

The fortified island of Reykjafell, La Rochelle, believes it holds the world's record for the scarcity of the bob among its female population. In a population of 11,000 there is only one bobbed female head.

Emmona De Valera, who recently resigned from Sinn Fein when the extremists among his republican followers refused to accept his proposal to compromise with the Free State, is forming a new organization to work for Irish freedom.

An air service across the Arctic, or at least the sub-Arctic regions, should be in operation within a few years, in the opinion of Commander George P. Mackenzie, who is in charge of the Canadian Government expedition which yearly visits the government posts in the far north.

Nearly a score of bills designed to enlarge quotas under the immigration restrictions law were rejected by the U.S. Senate immigration committee.

A million dollar art museum is to be erected at Yale University to house the rare and valuable collections now in its possession. The donors are anonymous.

The directors of Barclays Bank, London, in announcing a pensions scheme for women employees, state that on marriage women will be required to relinquish their positions on the staff. They will then receive a gratuity equal to 5 per cent. of their annual salary for every completed year of service.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

**Favorable Trade Balance**  
A balance favorable to Canada was maintained in the trade of the Dominion up to the end of February, a statement issued by the bureau of statistics shows. In that month imports to the value of \$70,908,980 were recorded, while imports were valued at \$57,512,147. For the twelve-month period ended February 28 last, exports reached a value of \$1,297,744,682 and imports \$911,107,055.

## EARACHE.

Heat an iron spoon. Put four drops of liniment and four drops of sweet oil in it, mix and put one or two drops in the ear.

W. N. U. 1025

## Children Looking For Work

150,000 in England Have Been Released From School.  
More than 150,000 British children who had attained the age of 14 were released from school and placed on a labor market which has little place for them.

In the past children were permitted to leave school on attaining the age of 14. This released them throughout the year, and it was possible for them to be absorbed in industry and commerce gradually.

Under the new system children who become 14 during a school term may not leave school until the end of that term. This makes so many applicants for positions the same time that employees say many of the children must necessarily remain idle for a considerable time before they can be absorbed into the industries.

## Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the torturing aches of Rheumatism, no salient is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

Princess Frock of Charm

This one-piece model of Chinese damask has kept itself as simple as a smart frock—can-but it just couldn't help flaring gracefully at the lower edge. The upper part of the dress is cut on princess lines, slightly molding the figure. The V-shaped front opening is a very important style feature, and so is the scarf collar—and this dress has both. The long plain sleeves are finished with tab cuffs. No. 1245 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38, but requires 2 yards 4-inch material, with 5/8 yard contrasting for reverse facing. Price 39 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

## ON THE AIR

What is Doing in the World of Radio

Exports of radio apparatus from the United States to the remainder of the world have risen in six years from an item of less than \$1,000,000 to one that in the year just past was only a few dollars short of \$10,000,000.

South Africa is expected to follow the lead of Great Britain in licensing broadcast receivers, according to advices. A heavy penalty will be imposed on those who fail to comply with the licensing regulations.

Station KFPJ, Oklahoma City, has been made defendant in a \$20,000 libel suit. The suit concerns statements made by Rev. Lincoln McConnell while the station was leased by him.

Sir Harry Lauder, world famous Scottish comedian, was able to save the price of his telegram while in London. He was broadcasting from station 5LO and, knowing that his wife who was in Glasgow was listening, he included a short message to her.

Radio broadcasters are eternally on the watch for promising material for the program, and hold regular auditions for that purpose. Out of the ruck of the ordinary and average at times there emerges a distinctive voice or a splendid musician who compensates for the rest.

An interesting record in long distance radio reception on a moving train has been established by the Continental Limited, the transcontinental express of the Canadian National Railways, in picking up and holding for thirty minutes a broadcast from Vera Cruz, Mexico.

An automatically controlled radio telephone service has in operation between two private stations, one in Honolulu and the other on the island of Lanai, 60 miles distant. The system includes a bell ringing device to notify one end of the "line" that the other desires to converse. Power is supplied by storage batteries.

## Restored Strength and Former Good Health

Quebec Lady Was Weak, Excessively Nervous, Depressed and Weighed Down With Lumbago

Mrs. E. Boyd Took Three Weeks' Treatment of Dodd's Kidney Pills and Amazing Results Followed.

Dunany, P.Q. — (Special). — That Dodd's Kidney Pills bring back health and strength is proved by the following statement from Mrs. E. Boyd, who resides at Dunany.

She writes: "I took your Dodd's Kidney Pills because I was weak and excessively nervous. I was unable to work without feeling depressed, and had no appetite. It has only taken a few weeks' treatment of Dodd's Kidney Pills to restore my strength and courage and former good health."

This statement speaks for itself. Ninety per cent. of the ills from which women suffer come from weak or diseased kidneys. They are the organs that strain all the impurities out of the blood. If they fail to do this, the impurities remain in the blood and are deposited all over the body.

Buy a box today. Get from all drug stores or The Dodd's Medicine Co., Ltd., Toronto 2, Ont.

## Canada's Large Shoe Output

Statistics received by the bureau of statistics from 141 boot and shoe factories, out of a total of 159 factories in operation in Canada, show that 1,388,461 pairs of leather and felt footwear were manufactured during the month of January last. This total comprised 1,149,198 pairs of boots and shoes with leather or fabric uppers, and 238,263 pairs of felt footwear of all kinds of cloth slippers for house wear. These totals are exclusive of harrigans and sheepskins and Indian moccasins.

## OUR CROSSWORD PUZZLE

- |                                            |                                      |
|--------------------------------------------|--------------------------------------|
| Horizontal                                 | Vertical                             |
| 1—To direct.                               | 1—Constituent materials of anything. |

| 9—Mixure of the warp in weaving.           | 9—Permit.                            |
| 10—Quick; fast.                            | 10—Predict meaning not.              |
| 11—The contritor.                          | 11—Ancient Greek road theatres.      |
| 12—Fabricator.                             |                                      |
| 13—Muscular twitching.                     |                                      |
| 14—Draw over a surface roughly.            |                                      |
| 15—Thinly diffused.                        |                                      |
| 16—Perform.                                |                                      |
| 17—Within.                                 |                                      |
| 18—Characteristics.                        |                                      |
| 19—One who restores to health.             |                                      |
| 20—City in Nevada.                         |                                      |
| 21—Crude metal.                            |                                      |
| 22—Wash; bathe oneself.                    |                                      |
| 23—Tavern.                                 |                                      |
| 24—Structure of hall and rain.             |                                      |
| 25—Aeriform fluid.                         |                                      |
| 26—Exist.                                  |                                      |
| 27—The armpit.                             |                                      |
| 28—Inclination.                            |                                      |
| 29—Prest; twice or double.                 |                                      |
| 30—Fungus of the mushroom family.          |                                      |
| 31—Rubbed out.                             |                                      |
| 32—Ambassador, envoy.                      |                                      |
| 33—Ridicule.                               |                                      |
| 34—The period of minor fort.               |                                      |
| 35—Prohibit.                               |                                      |
| 36—Mixed or jumbled type.                  |                                      |
| 37—Place where a prisoner stands to plead. |                                      |
| 38—Completeness.                           |                                      |
| 39—Cooking vessel.                         |                                      |
| 40—Pastry cake usually made of fruit.      |                                      |
| 41—Pertaining to a tribe.                  |                                      |
| 42—Fall to follow suit in type.            |                                      |
| 43—Girl's name.                            |                                      |
| 44—Consolation or comfort.                 |                                      |
| 45—Harkened to.                            |                                      |
| 46—Litter behind.                          |                                      |
| 47—Dwell.                                  |                                      |
| 48—Note of the scale.                      |                                      |
| 49—Oath or cut; rent.                      |                                      |
| 50—Weary.                                  |                                      |
| 51—Associate of the Royal Academy (abbr.). |                                      |
| 52—Equality.                               |                                      |
| 53—Symbol for silver.                      |                                      |
| 54—Severe note of the diatonic scale.      |                                      |

## SUNDAY SCHOOL LESSON

APRIL 25

### THE STORY OF CAIN AND ABEL

Golden Text: Am I my brother's keeper? Genesis 4:9.  
Lesson: Genesis 4:1-26.  
Devotional Reading: 1 John 4:1-21.

### Explanations and Comments

I. The Occupations of Cain and Abel, verses 1, 2.—Abel and Eve, two sons were born to Cain and Abel. The Hebrew word for "I have gotten," is Kaneh whence our word Kane. Cain became a tiller of the ground, a husbandman, and Abel a keeper of sheep, a shepherd.

II. The Two Sacrificial Offerings, verses 3-5.—The two brothers brought each an offering to Jehovah. Cain's offering was "the fruit of the ground," Abel's, the first-born of his flock, the greatest-prized pieces of which were offered in sacrifice. Compare Lev. 1:3, 23. "The origin of sacrifice is not explained, nor is an altar mentioned. Man is supposed to be by nature endowed with religious instincts, and capable of holding converse with God. Worship was man's mode of approach to the Deity; and sacrifice was its outward expression" (Dr. Herbert E. Ryle). "From the time of Abel onwards, sacrifices are uniformly, and with increasing clearness, set before us as the appointed way of approaching and holding fellowship with God. All we have the sacrifice of our Savior Jesus Christ."

### Healthy Body Able To Resist Cancer

### German Doctor Proved Statement By Experimenting On Himself

Cancer is not contagious when brought in contact with a healthy human body, in the opinion of Dr. Hans Kirschbaum, of the surgical clinic of Konigsburg University. Dr. Kirschbaum astonished a convention of German surgeons in Berlin by repeating that he had experimented on himself, transferring a patch of cancerous growth from a patient's pectoral gland to his own thigh. The cancer cells, he reported, died shortly, being unable to live in a healthy body.

### Study Of Dead Things

Millions of young people have spent years in school and college studying dead things without learning anything of the live subject of taking care of themselves, the most important in the world.—E. W. Howe's Monthly.

Minard's Liniment for coids.

## Gov.-General's New Limousine

### The Finest Car Ever Produced in the Dominion

The fact that the governor-general's new limousine, presented by Canadian war veterans, is the finest car ever produced in Canada is said to be largely due to the fact that war veterans employed in the plant at Oshawa where the car was built, made a special drive on the job.

Everything for "Byng's car" got extra service and the men put the extra work into it as their contribution to Byng's gift. The presentation of the car was not the complete story, for the veterans have also provided for its insurance and even its transportation to London when his excellency returns to the motherland.

### The Oil of Power—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

### Eat Apples With Skins On

Apples are more beneficial if eaten with the skins on, and also cooked with the skins on, because next to the skin comes a mineral and vitamins which the body needs. These are removed if the apple is peeled.

### As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

### A pedestrian used to be a person who walks. Now he jumps.

Some barefooted lies are old enough to have a full beard.

## RUST RESEARCH WORK CONTINUES TO BEAR FRUIT

Winnipeg.—Rust research workers continue their experiments to eliminate a menace which annually costs millions of dollars to the agriculturists of Western Canada, and at a conference here reports of steady progress were made. "Interesting details were contained in reports submitted."

"It is not expected that a variety of wheat will be obtained that will be entirely resistant to all the biological forms of stem rust and desirable from every standpoint," declared Dr. C. H. Goulden, a member of the research laboratory plant here.

Dr. Goulden, however, was confident "strains will be obtained which combine partial resistance to the most virulent forms of rust with greater earliness and good milling quality."

The finding of such varieties, said Dr. Goulden, would reduce the loss from rust throughout Western Canada by 75 per cent.

## Says Technique Of Peace Is Ended

Military Training In Canadian Schools A Mistake Opinion of Woman Member

Montreal.—"We have developed the technique of war, but we have never developed the technique of peace. Increase the purchasing power of a people and you will stimulate commerce and end unemployment. War brings good times, but a terrible depression afterwards," said Agnes MacPhail, M.P. for Southeast Grey, who addressed a meeting here.

"We have dressed up a grinning monster in place of patriotism," she said, "war is made out to be the great adventure. We all react to military music. All want to do the knightly and heroic thing. Real patriotism is the contribution to our upward climb. It is a mistake to have military training in all the great schools of Canada. We are each personally responsible for the thrusting of a military machine onto the youth and children of the country. There is a general feeling that it has gone long enough, that we must get the military machine out of Canada," she said.

## New Pretender To Throne Of France

Officer In Dutch Army Lays Claims To Mythical Crown

Paris.—Green uniforms upon walls of Paris buildings announce a new pretender to the throne of France, in the person of Henry of France, Duke of Normandy, and now an officer in the Dutch army, who contests the claims laid to the mythical throne by the Duke of Guise.

The family from which both the Duke of Normandy and the Duke of Guise are descendants dates its royalist connections from 888 A.D. Since that time it has furnished 39 kings of France, four emperors to the Oriental countries, seven kings to Spain and 29 kings to Portugal.

The posters just put up violently attack the claims of the Duke of Guise, charging that the immediate family of the Duke of Guise paid for the execution of Louis XVI. and Marie Antoinette.

### Fear Forest Fires

Victoria.—With forests drying up during an unusually early period of warm, dry weather, and no relief in sight, officials of the provincial forestry service regard the forest fire situation on Vancouver Island with alarm. A lengthy period of drought, with high temperatures, is predicted by the Dominion Government weather bureau and if this forecast is made good the island may soon face the worst fire situation in its history.

### Charged With Espionage

Paris.—Two foreigners, believed to be Italians, have been arrested at Nice, charged with espionage. The main assertion is that common thought out Italy of an attack plan to get back Nice, which was ceded by Italy to Napoleon III. in 1860, for his aid in repelling Italy from the Austrian yoke.

W. N. U. 1625

## Move Reindeer Closer To Alaskan Railroad

Lack of Marketing Facilities Menaces Living of Eskimo Herders

Anchorage, Alaska.—A great reindeer drive which will take two years and for a spectacle rival the big trail movements of Texas herds in frontier days, will be undertaken in an effort to revitalize an industry now menaced by lack of marketing facilities.

Under the direction of George Ashenfelter, many thousand head of both government and privately-owned deer will be driven overland from the Arctic to Broad Pass on the Alaskan Railroad. The drive may be as large as 50,000.

A similar plan conceived two years ago by the bureau of education was abandoned for lack of funds.

About the Eskimo, who will participate, are many skilled trappers. They hope to create an Eskimo village near Cantwell, the centre of the southern reindeer industry. Mrs. Ashenfelter plans assembling a score of Eskimo women and opening a manufactory of bead and skin work.

## Myers Is Acquitted

Manager of Bingo Mines Was Found Innocent of Charge

Winnipeg.—Joseph Myers, managing director of the Bingo Mines, Limited, was found not guilty by Mr. Justice Curran in the court of King's Bench. Mr. Myers was charged with making false statements with intent to deceive.

No evidence was offered by the defence after R. B. Graham, K.C., brought the Crown's case to a close. The case closed with dramatic suddenness. Several Crown witnesses who had been subpoenaed were not called to the witness box.

Al. Elong, R. A. Boumar, K.C., senior defence counsel, had argued there was no evidence against his client and made a counter-charge that Myers was being hounded to death. The trial lasted just eight days and all through the proceedings were marked with considerable liveliness.

## Will Have Charge Of Two Departments

Hon. J. C. Elliott, Minister of Labor, To Have Extra Work

Ottawa.—The department of soldiers civil re-establishment, it is expected, will very shortly be placed under the administration of the minister of labor, Hon. J. C. Elliott. There is no intention, it is understood, to absorb the department of soldiers civil re-establishment in the department of labor. Official announcement on the matter will probably be made within the next week.

The department of health is also being brought under the administration of the minister of labor. This department, though, will not be absorbed in the department of labor.

Prospectors Going To Red Lake Hudson, Ont.—The spring rush to Hudson will begin in a few days. If the mild weather prevails, prospectors are arriving daily and parties will be taking the winter trail into the scene of the gold strike are carrying canoes. They are preparing to stay until the water trail opens.

## British Schoolboys for Canadian Farms

Here are some of the party of twenty-five British schoolboys who arrived in Montreal recently under the plan of the Canadian Pacific Railway and Macdonald Agricultural College, St. Anne de Bellevue, Quebec, whereby they will receive a training in the rudiments of Canadian farm methods and will later be placed on farms. The combination of college training and farm apprenticeship should give each student a good working start when he finally acquires his own farm. The group shown above was photographed at the C.P.R. Windsor Station, Montreal, on arrival.

## WANT BLUE SKY LEGISLATION FOR WESTERN CANADA

Edmonton.—Another effort is to be made by the Alberta Government in conjunction with Saskatchewan and Manitoba to secure action by the Dominion Government authorities in the way of blue sky regulations affecting share companies.

Premier Brownlee will take the matter up as one of the items of his forthcoming Ottawa trip, and he is expecting the three provinces once more will join to lobby for the co-operation of the Federal Government.

This effort will be a follow up of representations made by the premier by letter to Mr. Hon. Mackenzie King, calling attention to the new activity in all speculation and the danger of losses to the public as a result, and urging action for the necessity of effectively controlling promotional companies.

Sample advertisements from Alberta newspapers at the same time were sent forward by way of exhibits.

## Motion For National Banking Before House

Winnipeg Labor Member Asks For Approval Of Resolution

Ottawa.—J. S. Woodsword, Labor, North Centre Winnipeg, asked the house to approve his resolution for the establishment of a national system of banking.

There were, he said, three principal kinds of money in use in Canada. The first was gold, the second bank notes and the third cheques.

More than 90 per cent. of the business of the country was carried on by means of cheques. Mr. Woodsword said business men as well as farmers' organizations were beginning to doubt whether the present banking system was the last word in efficiency.

The labor member mentioned one large farmers' organization in the west which had endorsed his resolution moved last year, which was along lines similar to the one which he had just introduced for the consideration of the members.

## Plan To Raise Warships

Vessels Sunk In Eastern Waters During War Will Be Salvaged

Constantinople.—An Italian salvaging concern has contracted with the Turkish Government for the raising of the 39 ships sunk in the Dardanelles and the Marmora and Black Sea during the great war. The Turkish Government will receive 90 per cent. of the value of the salvaged material, while the Italian company expects to make a considerable profit out of the remaining 10 per cent. Nine of the wrecks are British, chiefly destroyers.

Over Million Japs Live Abroad Tokyo.—Japanese living abroad, including those from Korea and Formosa, total approximately 1,100,000 recent statistics show. Asia has the largest number of Japanese with 688,000. In North America there are 158,000, Oceania has 127,000 and South America 50,000.

## Alberta Legislature Adjourns

Announcement Made That Provincial Elections Will Be Held Prior To July 16

Edmonton.—The Alberta Legislature Assembly has adjourned after having been in session since February 11. But for the bill transferring the natural resources from the Dominion to the province, it would have been possible to prorogue. This bill cannot be passed by the province until it has reached third reading in the Dominion house. A short session to deal with the bill will be held on or about May 6.

Premier Brownlee announced on Thursday that the general election would be held prior to July 16. It is thought probable that it will be about the first week in July.

Following the change adopted by the British House of Commons, Alberta cabinet members will no longer have to seek re-election on appointment.

A bill was given unanimous third reading empowering the government to raise \$12,500 for capital expenditure and reconditioning of the B.C. & N.W. Railway, and \$1,500,000 to purchase stocks and bonds of the railway.

The telephone system of the province is the object of an inquiry at the present time. While the system is being efficiently conducted, the rates are too low to give an adequate return on the capital investment. Much of the rural part of the system was built as part of a colonization system, and there is a question as to whether part of the cost of this should not be charged to general revenue.

On the recommendation of the agricultural committee, the house decided that the \$12,500 surplus of the 1919 Canada Wheat Board should be invested, and the interest used for the promotion of agricultural research and development of co-operative marketing.

The house unanimously passed a resolution congratulating the Edmonton Grads' world's champion girls' basketball team, on their successful tour of the United States, and wishing them every success. The motion was introduced by J. C. Bowen, leader of the opposition, and seconded by Premier Brownlee. It was stated that the girls were giving Alberta one of the best advertisements it had ever had.

## Suggests Interim Report

Would Re-assure Men Whose Business Suffered From Smuggling

Ottawa.—An interim report from the committee of the House of Commons which is investigating the conduct of the customs department would have a restorative effect upon Canadian business, George F. Henderson, K.C., suggested to the committee. Mr. Henderson is counsel for the Merchants' Protective Association, and he thought that a report at the present time indicating the steps that had been taken to check smuggling, would serve to re-assure many business men who had suffered thereby.

Bishop Ingram To Visit Canada Victoria.—Bt. Rev. A. F. Winton Ingram, Bishop of London, will be in Victoria in September to lay the cornerstone of the new Anglican Cathedral to be built here, cathedral authorities have announced.

Propose Rural Credits Board Winnipeg.—A board of three men composed of a banker, business man, and a farmer, to administer Manitoba's rural credit system is advocated by Hon. T. C. Norris, Liberal leader. The rural credits now are administered by a government department.

May Handle Cattle Imports London.—Farmers in the north of England who are interested in the importation of Canadian cattle have submitted proposals to the city corporation of Hull concerning the feasibility of handling that port capable of handling Canadian importations.

Anniversary Of Confederation Ottawa.—In the Senate today Hon. Mr. Lewis gave notice of a motion asking parliament to make preparations for the celebration of the sixtieth anniversary of Confederation next year.

Many Suicides In Budapest Budapest.—Twenty-seven suicides have been reported during a period of 24 hours, many young persons being included. The causes given are unemployment and other distress.

Insolvency In Hungary Budapest, Hungary.—An unprecedented wave of insolvency is sweeping Hungary. More than 1,000 business houses have failed since January 1.

## PROGRESSIVES OF ONTARIO TO HAVE DRY PROGRAMME

Toronto.—Meeting in convention here, members of the Ontario Progressive Association elected former premier E. C. Drury to the presidency of the organization and drew up a platform on which to appeal at the next provincial election.

After much argument the convention adopted a resolution calling for prohibition "in accordance with the expressed will of the people."

The discussion, prior to adoption of the resolution, was ended by E. C. Drury, former premier, who asked what was the sense of elections if a man "cannot say what he stands for before he is elected." He thought he had the right to educate the people to prohibition. If the majority of the people were in favor of prohibition no one had the right to gild him, he said, to delegates who opposed the prohibition platform.

Lengthy and detailed criticism of the present prohibition administration of Premier G. Howard Ferguson was made by Mr. Drury. He declared that the redistribution scheme was a "gerrymander" by which smaller ridings in the province were curtailed so that the Toronto ridings might be enlarged and that Toronto was cut up into electoral districts in such a way as to give the "wet" foreign element in each district preponderance over the "dry."

## Must Make Wireless Tests Via New York

British Post Office Refuses To Let Canada Make Experiments Direct

London.—The British post office has definitely told us that if Canada wants to carry out wireless telephonic tests in the United States, it must in connection with the agreement now awaiting signature the post office authorities have refused to consider the possibility of Canada carrying out any such experiments direct between Canada and Great Britain under the new Marconi beam system.

This is the statement of Mr. H. M. Short, manager of Canadian Marconi, in reply to the defence published by the British post office to the effect that the reason for conducting the telephonic tests to New York was that only the companies there had the adequate facilities.

### Arbitrator Appointed

Regina.—W. O. Styles, Regina, former manager of the local branch of the National Trust Company, has been appointed to represent the Saskatchewan Pool Elevators, Ltd., on the arbitration board to determine the purchase price of the Saskatchewan Co-operative Elevator Company's system. Mr. Styles and C. D. Howe, the Commissioner, will appoint a third member of the board.

### Propose Rural Credits Board

Winnipeg.—A board of three men composed of a banker, business man, and a farmer, to administer Manitoba's rural credit system is advocated by Hon. T. C. Norris, Liberal leader. The rural credits now are administered by a government department.

May Handle Cattle Imports London.—Farmers in the north of England who are interested in the importation of Canadian cattle have submitted proposals to the city corporation of Hull concerning the feasibility of handling that port capable of handling Canadian importations.

Anniversary Of Confederation Ottawa.—In the Senate today Hon. Mr. Lewis gave notice of a motion asking parliament to make preparations for the celebration of the sixtieth anniversary of Confederation next year.

Many Suicides In Budapest Budapest.—Twenty-seven suicides have been reported during a period of 24 hours, many young persons being included. The causes given are unemployment and other distress.

Insolvency In Hungary Budapest, Hungary.—An unprecedented wave of insolvency is sweeping Hungary. More than 1,000 business houses have failed since January 1.

## "Cowboy and Countess" Full of Action.

"The Cowboy and the Countess" a picture full of action and thrills with a decidedly new angle is the latest Fox films production starring Buck Jones which comes to Wundel's hall Monday next April 10th. The plot revolves round a land of cowboys on a tour of Europe. Their adventures on the way over on one of the big Transatlantic liners are extremely funny and their part in the capture of the notorious bandit is one of the biggest thrills in the history of Western pictures.

## Tenders Wanted, Brushing and Breaking.

## Uncrowned King of a Happy Valley

ONE OF LIEUT. GOV. BRUCE'S INDIAN FRIENDS

LAKE WINDERMERE, B.C., THE HAPPY VALLEY

BRUCE (SEATED RIGHT) BEING MADE AN INDIAN CHIEF

Robert Randolph Bruce has recently been appointed Lieut. Governor of British Columbia, as the representative of King George in that province of Canada. Like many another successful Canadian, he came from Scotland, about thirty years ago, bringing with him a truck coat, a tall hat, and a bundle of introductory letters. He was the son of the minister of the parish from which George Stephen, later Lord Mount Stephen, then President of the Canadian Pacific Railway, had come, and so the first office where he presented himself was that of T. G. Shaughnessy, then general manager. In a very few minutes he was given a job, but as he was going out the door, "T. G." called after him, "Young

man, if you want to get on in this country, shed that coat."

Mr. Bruce must have obeyed instructions, for he has been "getting on" until his recent appointment seems to be as near the top as any Canadian could ever be. And, coincident with his own development, has come about the development of the Windermere Valley in British Columbia, where he has made his home for some years. Mining interests first took him, back in 1889, to the upper reaches of the Columbia River, where he commenced operations on the Sitting Bull claim on Boulder Creek, a tributary of Horse Thief Creek, near the spectacular Lake of the Hanging Glaciers. Later he let this for a new claim called Paradise, from

which has sprung the appellation Happy Valley. The village of Windermere, on the eastern side of Lake Windermere, was the first to take root, and here Mr. Bruce settled. He built a bungalow, and planted a garden, a garden which today is a riot of exquisite flowers, a regular flower show for those visitors to the Canadian Pacific Bungalow camp opened a year or so ago a short distance along the lake shore from the Bruce estate. Not only did this indefatigable gardener plant lovely flowers in his garden, but realizing the difficulties of keeping miners at their jobs, he planted fresh vegetables in sufficient quantities for his men to have a diet of fresh vegetables instead of a diet of tin cans. His ores are mined with never a strike.

## SETTLERS SUCH AS THESE COMING BY HUNDREDS... POLISH FLAPPERS AT ONCE ADOPT CANADIAN STYLES

**SCANDINAVIANS** of the best agricultural type, many of them bringing money to buy land, are arriving in Winnipeg these days literally by the hundreds. The above photograph, taken a few days ago at the Union station, is a fair sample of the type of immigrant that Canada is getting from Europe this season, and the picture speaks for itself as to the standard of settler. During the past several days many such Norwegians, Swedes and Danes have been included in the large parties transported from the seaboard by special Canadian National trains. They are placed by the G.N.R. Colonization Department in positions on farms throughout the prairie provinces, with the idea of working for a year or two to learn Canadian farm methods before taking up land of their own.

The last week in March saw the largest movement of immigrants to Canada since pre-war years and

The outstanding feature in connection therewith is the vastly superior type which is coming to this country under the present immigration regulations. Also, during

that period a party made up of 57 British families from the B.S. Antioch reached the west under the Empire Settlement Act to establish 5,000 British families on the land

in the Dominion. Large as this party was, it formed but a part of the British group which crossed the Atlantic in charge of the Canadian National Railway, there being in addition 280 single men, 70 boys and 10 single women. All these people, numbering 680 souls, travelled to Canada under the special supervision of Mr. J. S. McGowan, director in London of the G.N.R. lecture course in Canadian farming.

The insert might be entitled "Canadians by Conviction." It shows a couple of charming young Polish girls, Aniel and Anna Kudrinski, who visited the shingle bobby in Montreal between trains. When interviewed at Winnipeg en route with their parents and little brother to their new home at Steinbach, Man., they were very proud of their Canadian half-brother and showed no hesitation when invited to have their picture taken.—C. N. R. Photos.

### Stony Plain and District.

Mr Speakman, agent for the Cockshutt Co., is erecting a new implement shed 30x60 on Second St.

A sitting of the District Court will be held in Stony Wed. April 28.

A concert under the auspices of the Walthor League will be held in Wudel's Hall on the evening of Friday, April 30. Some good talent has been engaged.

The membership rolls of the Rifle Club are now nearing completion, and will shortly be forwarded to the Military Hdqrs. at Calgary. Those wishing to join should see the secretary at once.

A team belonging to a town lot "farmer" ran away on Saturday and demolished an electric light pole before being captured.

Butcher Horn's new butcher shop on First Street east is now nearing completion. This butcher's former patrons can rely on obtaining the same good service and meats as formerly.

Mr and Mrs Joseph Rivest gave a dinner at their residence on Sunday in honor of the newly-weds, Mr and Mrs Romeo Rivest, who had just returned from their honeymoon. A number of friends and neighbors were invited.

Helge Anderson's orchestra was the big attraction at the dance at Holborn Hall Friday night last, when a big crowd of dancers was in attendance.

A dance will be held in the Rosenthal Hall on Monday, May 24.

Auto owners would be well advised to have their 1926 license plates displayed on their cars with a number-plate on each end of the machine. The Police have been instructed to enforce this regulation.

Mr Louis Javorsky, the well-known and enterprising farmer who has "made good" since coming to this district, has moved from the half-section south of town which he has farmed for several years, and is now located opposite St Joseph's Church at Spruce Grove. This property he recently purchased from Mr D Brox, and has made alterations to the buildings on the place and erected a new residence for himself and family. Louis is now located on the main road, and his many friends expect him to make a good showing at his new location.

The boy will never forgive you if you don't take him to see Buck Jones in the "Cow-boy and the Countess."

At the annual spring sale at Calgary, a total of 445 bulls were sold for \$72,850 or an average of \$160.11 a head, an increase of about \$20 over last year's price. Animals in first class condition brought from \$200 to \$435. Hereford topped the list.

### Calendar.

April—  
28—Sitting in Stony Plain of the District Court.  
30—Concert in Wudel's Hall.  
May 1—Dance in Wudel's Hall.  
24—Dance in Rosenthal Hall.

### Stony Plain and District.

This is FIRE PROTECTION WEEK.

Miss Louise Zahn of Bright Bank is visiting friends in Edmonton this week.

Mr Louie Ulmer, while vaulting a fence at the Fair Grounds on Sunday had the misfortune to receive an injury to his back.

Mr Henry Oppertshanser is in the City this week, undergoing treatment for rheumatism.

Mr Werner is now at the J Miller old corner, and reports business as being particularly good.

The Girls' Club of Stony Plain are putting on a dance in Wudel's Hall on May 1st. Admission 75c per couple.

Attention is called to the advt. on page six for tenders wanted for brushing and breaking, near Stony.

Thrilling battles, red-hot action, riotous humor, a pulsating love story—that is "The Cowboy and the Countess," Wudel's Hall, Monday next.

Duffield shipped a car of hogs last week to Edmonton.

At an auction sale at a farm near Leduc last week \$96.50 was paid for a sow and six young pigs.

### Sporting Notes.

The Walthor League ball team had a practice on local grounds on the afternoon of the 18th, with the following players on the job: Jac Ulmer, Carl Euders, Louie Euders, Henry M Euders, John Kubik, W Ducholke, Ed Ducholke, Louis Ulmer, E H Goltz, Eric Heichen, Carl Hennig, Emil Ulmer. Another practice game will be held on the 25th, when probably a game will be played with a local team. At a meeting last week Mr E H Goltz was chosen captain.

The ball players at the High School organised last week for the coming season, with Ralph Witherspoon as the Captain. Practices are now being held every day. An outfit is being secured thru the efforts of the Principal. On its arrival a match will be played with Garden Valley team, on the latter's grounds. Following is a list of the players: C Anderson, G Davis, Giles Clarke, I Oatway, H Larson, Ang Mohr, Jac Mohr, G Willie, Ralph Witherspoon.

St Matthew's school No. 2 has a ball team in the field already, composed as follows: L Hennig, G Gitzel, William Bruedo, E Daunhauer, Jackie Miller, E Goertz, E Goertz, O Oppertshanser, O Miller, W Miller captain. This team is arranging for a match with St Matthew No. 1.

Mr Herman Loeblich, the well-known ball player, has received several tempting offers for his services this season from cities on the Coast and also from Montana.

Mr Hal Laird, who put Stony on the baseball map, is expected back shortly, to put a good ball team in the field, of which Mr Chessar will be captain.

### Here and There

Claims staked in the Red Lake gold mining field are keeping the recorder's office busy. Prospectors are of the belief that the area from Red Lake to the Menzies boundary is promising, and already nearly square miles of territory west of Red Lake has been staked.

During the eleven months ending February 28, the ordinary revenue of the Dominion was \$337,898,449 or an increase of twenty-nine millions over the sum of \$308,994,297 for the corresponding period of the previous year. Ordinary expenditure is about the same as a year ago. On February 28 last it totalled \$270,629,417.

Archie Cox, the god-natured chef on the Canadian Pacific liner Empress of Asia, superintended the trans-Pacific voyage of 50,000 Canadian fish eggs from Vancouver to Kobe. The shipment necessitated extremely careful handling. The eggs were packed in ice and had to be kept at an even temperature during the entire voyage.

Lord Allenby, conqueror of Palestine, was greeted by huge crowds on his arrival in Montreal in March. The leaders of the local militia were on hand to do homage to the famous general who placed a wreath on the monument to Canada's fallen soldiers in the Windsor Station. Viscount Allenby also spoke at the St. Denis Theatre.

The Dominion Experimental Farms system announces the introduction of a new and valuable variety of field peas which may mean to the field peas what Marquis has meant to the growers of wheat in the west. The new variety is a selection from a cross made at Ottawa between Munro and Black Eye Marrowfat varieties.

Gross earnings of the Canadian Pacific Railway during 1925 amounted to \$183,588,106, as compared with \$183,800,156 in 1924, while working expense last year totalled \$143,291,230, as compared with \$145,274,914 in 1924, leaving a balance, after deduction of fixed charges, of \$22,216,239 for 1925, as compared with \$21,876,935 in 1924.

In an interview in Montreal recently, E. W. Beatty, president and chairman of the Canadian Pacific Railway, said that the National Conference of Education, scheduled for April, would be of incalculable importance for the future of the Canadian people. Mr. Beatty is chairman of the Montreal Committee which undertook the organization and financing of the Conference.

Count Thun Hohnstein, one of the wealthiest men in Czechoslovakia, who arrived on the Canadian Pacific Railway in Montreal recently, is to purchase a large tract of land around Calgary. Count Hohnstein, owner of large properties in Czechoslovakia, is well versed in scientific farming and came to Canada to verify reports concerning the great possibilities which await the right type of settler.

A party of twenty-five school-boys arrived at Montreal in March, under an arrangement between the Macdonald Agricultural College, St. Anne de Bellevue, and the Canadian Pacific Railway. At the college the boys receive a short training in the rudiments of Canadian farm methods and are placed in suitable positions on farms in the spring. An experienced supervisor devotes his entire energy to see that the boys are well taken care of.
